

# **Safety Policy**

At Diaspora Artisan Solutions, we do understand the need for safety and caution. We know that a job done right the first time is always better and safer than a rush-job.

Unwilling to take risks with your home (and our safety) means we will provide high quality and dependable results while you enjoy peace of mind.

## **1. TRUSTWORTHY**

We understand that your home or property is a personal space. If you want someone you can trust, we are your solution to top-notch artisans who perform exceptional “finishing” work.

## **2. HIGH QUALITY**

We are up front about this: The “finishing” is arguably the critical phase of the build process, so it is important that this is done at a very high standard. We may cost more than the others, but we do quality work and don't cut any corners. You can have peace of mind knowing that you will always get the quality you pay for.

## **3. SAFETY AND CAUTION**

Quality work means we will not rush through jobs or sidestep safety to get the job done. You can trust that whatever we do, it will be done with your safety and our safety in mind.

## **4. FULLY VETTED AND TRUSTED**

Because we take what we do seriously, we have gone through a comprehensive process of screening, vetting, and selecting top-notch artisans, who are dedicated, honest, and trustworthy. While diligence and preventative measures will avoid problems, whatever happens, be rest assured that you are in good and safe hands.
